

WESTERN PARKWAY

Welcome!

On behalf of the Delaware Department of Transportation (DelDOT), we welcome you to Public Workshop No. 2 for the Western Parkway Project.

Our goal is to IDENTIFY, SELECT and PROTECT a preferred alternative for a four-lane partially controlled access highway, parallel and west of existing Route 1 from north of Route 9 (Five Points) to Route 24. The preferred alternative will also include a grade separated interchange at Five Points. The project is considering improvements to existing roads, new roads, transit, bicycle and pedestrian facilities. The preferred alternative will:

- Address the local transportation needs of the area.
- Protect environmental, historic and community resources.
- Accommodate planned economic growth.

We invite your comments and input on the Alternatives Retained for Detailed Study. We want to know what you think.

Thank you for your valuable time and feedback.

Carolann Wicks
Secretary
Delaware Department of Transportation
